

WORK ON GLOBALISATION

After studying the different documents in your TC2 English file (see list below) and watching the different CNN videos on the topic (see list below), please make a film on globalisation.

What you have to do

- work in groups of 3 or 4;
- explore one of the (positive or negative) aspects of globalisation through a story and present it in a film;
- it can take the form of a TV show (with one presenter, one person being in favour of globalisation and the third one against it).

First :

- Write your script in groups and give it to me to have it corrected (week 4 – 1 session in class);
- You'll get your script back (week 5).

Then

- Make a 3-6 minute film (weeks 6 and 7);
- Finishing the script : one session in class (week 6)
- Remember that you can introduce some humour in your film.

Finally

- We'll watch all the films in class (week 8).

This will give you **TWO marks** (one for the script and one for the film)
